

Wheel Change Fork

The wheel change fork is for all Airbus and Boeing wheels. It is used to lift and move the wheel from the axle during wheel and brake change. For easier wheel installation the wheel is rotatable on the fork.

To facilitate storing the wheel change fork in an "In-flight Kit" the fork is collapsible.

Customer advantages

- collapsible
- easy handling
- all tyre types from Airbus and Boeing
- wheel rotatable on the fork
- zinc-coated

Technical data

Total weight		kg	19,3
Dimensions (assembled)	Height	mm	1070
	Length	mm	2060
